

## ***Sponsorship Program***

CSA Italy is a not-for-profit organization with a mission to promote the use of best practices for providing security assurance within Cloud Computing, and to provide education on the uses of Cloud Computing to help secure all other forms of computing. The CSA (Cloud Security Alliance) is led by a broad coalition of industry practitioners, corporations, associations and other key stakeholders.

CSA has grown tremendously since we publicly launched in April 2009, and we continue to set the pace as the industry leader in research and best practices for developing the trusted cloud ecosystem. Cloud Computing represents the next generation of IT, compute as a utility, with an impact that will prove to be even greater than the adoption of the Internet.

CSA Italy mission is to serve the entire local community impacted by cloud, from providers and customers, to governments, entrepreneurs and the assurance industry. An important part of our strategy is our Sponsorship Program.

Sponsors can assist CSA Italy and have a tangible opportunity to shape the future of IT through their participation in our research programs and activities. From a practical business perspective, CSA Italy Sponsors have numerous opportunities to connect with customers, promote their expertise, generate leads and be recognised as industry thought leaders.
